Wall Mounted Wine Racks Assembly Instruction

Be applicable for same type wall mounted wine racks

1.Parts Included

1 Bottle Neck Holder Strip(A)

1 Bottle End Holder Strip(B)

Screws

Plastic Screw Hole Covers

Drywall Plugs

2.Tools Needed

1 Tape Measure

1 Screwdriver

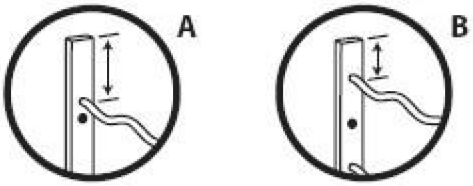
1 Level

1 Pencil for marking

3. Instructions Steps

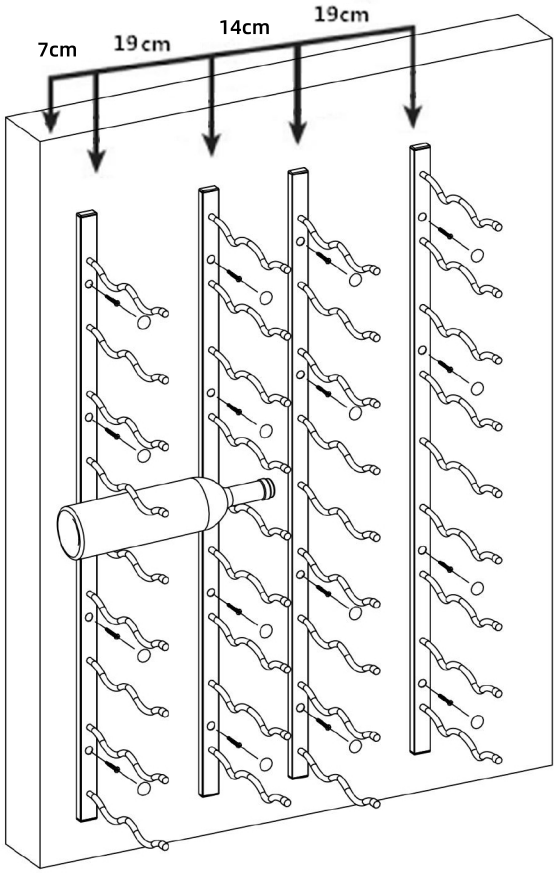
1.Choose Bottle Direction:

Two different holder strips,one for bottle neck(A) and one for bottle end(B).



2.Layout:

- Strip A/B should be marked 7cm away from nearby walls or obstructions.
- Measure 19 cm' from Strip A to Strip B
- For multiple columns,recommended distance between two racks is 14cm .



3.Fastening bottle supports to wall:

(1) After layout complete,using a level to ensure Bottle support Strips are vertically level before mounting.

(2) Fastening screws to wall through the pre-drilled mounting holes in Bottle Supports Strips.Please note it to use drywall plugs when installing to protect wall.

(3) Using screws hole caps to cover screw holes once all bottle Support Strips secured.
